1. For a dynamic search requirement collection via questionnaire according to priority

    1. does the search need full keyword to search or not?
    2. should the searh bar have recommended keyword or not
    3. for empty input how should the system react
    4. if I give a lot of space what should the system do
    5. should there have any filters (price and brand)
    6. is there any need of category search if yes then category (shirts, pants, ...)
    7. what will be the search bar position
    8. if search result not found then what will show
    9. any default text in the search box
    10. for search is there will have any search icon or press enter will process it

4.
